

Evaluation of childcare in the CHANGE area

Variations in cost and flexibility

£ Glasgow City Council nurseries were the **most affordable option...**

£££ Private and voluntary nurseries were **more expensive...**

✗ ...but had **shorter hours** and did not all cater for children aged under 2 years

✓ ...but they had more **flexible hours** and all cared for children under 1 year

Funded Early Learning and Childcare (ELC)

Over a year, 12 hours per week of funded ELC is provided for **3 and 4 year olds** (this will almost double to 23 hours in 2020)

But there is **no funded provision** for the **majority** of children under 3 and over 5

The cost of additional childcare particularly impacts **low-income families, one-parent families and families with multiple children**

Data in this infographic collected June 2018

CHANGE is a project working with communities in the East of Glasgow to develop childcare services in the area
