Cathkin Braes Mountain Bike Circuit

THE COURSE

- 5.5km long, in a figure of eight
- graded to suit different skill and fitness levels;
- provides technical challenges suitable for competition & leisure
- a sustainable legacy for the City of Glasgow

Stakeholder Involvement

Glasgow Cycling Forum

Project Specific Consultation

Involvement with public and pro-cycling groups

Key objectives

Improve / Expand network of cycle routes.

Promote cycling as healthy, cost effective and environmentally friendly.

Increase adult trips to work and journeys to school.

Install 100 new cycle parking rack each year.

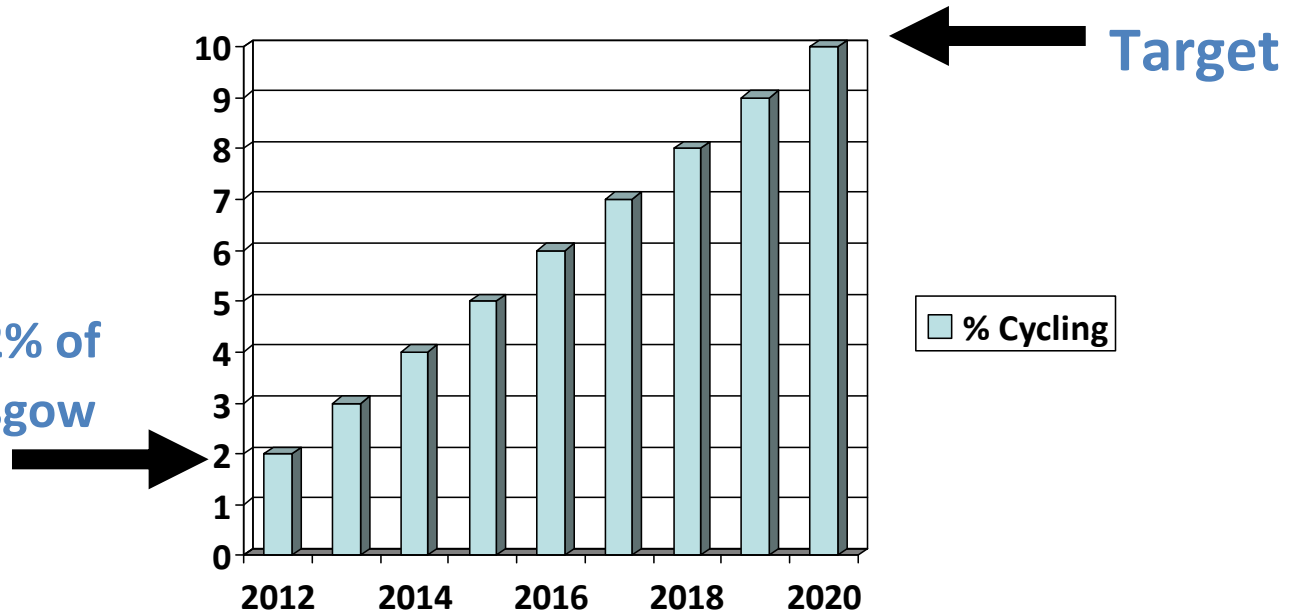

Overall Aims

To achieve the Scottish Governments target for 2020 that 10% of all journeys are made by bike.

Currently only 2% of journeys in Glasgow
